Chennai, Tamil Nadu | +91 XXXXX XXXXX | vtharunitha@gmail.com | LinkedIn | GitHub

Professional Summary

Computer Science and Engineering student with a CGPA of 9.0/10, strong academic performance, research exposure, and hands-on experience building cloud-deployed applications. Interested in software engineering, problem solving, and scalable technologies.

Education

B.E. Computer Science & Engineering, R.M.D Engineering College (2025–2029)
CGPA: 9.00/10

Technical Skills

Languages: C++, Java, Python

Web: HTML5, CSS3, Bootstrap 5

Backend & Database: Node.js, Express.js, MySQL

Tools: Git, GitHub, Vercel, Render, Clever Cloud

Core: Data Structures & Algorithms, OOP, Foundational AI Concepts

Projects

Cloud-Based 3-Tier Full-Stack Portfolio Application

- Designed and deployed a cloud-hosted three-tier web application.
 - Developed RESTful APIs and integrated database operations.
 - Implemented secure environment-based configuration management.
 - Deployed services across multiple cloud platforms and resolved deployment issues.
-

Publication

Omni-Shield: An Autonomous Cross-Platform Immune System for Modern Scams

ISBN: 978-93-5906-992-0

- Conducted literature survey and benchmark analysis.
 - Evaluated limitations of traditional fraud detection systems.
-

Achievements

- 2nd Place – Technical Paper Presentation, Institution of Engineers (India)
 - Certificate of Merit – State Level Poster Presentation, Water Summit 2026
-

Certifications

- NPTEL (Elite + Silver Medal) – Soft Skill Development, IIT Kharagpur
 - Infosys Springboard – Java Programming
 - Infosys Springboard – C++ Programming
-

Additional Information

- Solved 300+ programming problems on CodeTantra
- Strong communication, collaboration, presentation, and self-learning skills
